The Adrian College chapter of the National Society of Leadership and Success was recognized for the Founder's List award this Fall. This honor was given to only 53 out of 700 national chapters. The award is reserved for NSLS chapters that complete eight of ten pillars, which are designated by the national organization to maintain the success and longevity of each chapter.

Last year, Adrian's chapter received the organization's Order of Sigma award, which is the highest award for pillar achievements.

"Founded in 1970, Chicago Center has extended the college classroom walls by providing professional practicum opportunities and urban seminars for students of all academic majors in Chicago."

Representatives from the Chicago Center visited campus on September 27, 2022 to share information on their Spring 2023 programs. ## INTERNSHIP SPOTLIGHT

### Our student intern spotlight for the month of October is Tyler Fyfe

"Tyler has been fantastic since starting this internship. Tyler has learned so quickly the ins and outs of a Sports Information Department. He has helped edit the athletic website ([adrianbulldogs.com](http://adrianbulldogs.com)) when it comes to schedules, rosters, record books, stats, and stories. He shows up on time and communicates very well with his supervisor, student workers, and coaches. Tyler has been the official scorer for the majority of our home soccer games and will soon be assisting with hockey. With the skills he has learned in such a short time within the internship, and the [personality](#) and professionalism that he brings to work everyday, he will have no problem finding a job in sports after graduation."

- Mike Prang

"Being in the Game Day/Sports Information internship this semester has been nothing short of exciting. The tasks I tackle on a day to day basis include implementing sports information into the Adrian College Athletics website, setting up on game days, recording statistics during games, writing post-game recaps and shadowing my supervisor and Sports Information Director at Adrian College, Mike Prang, in everything he does. I applied for this position in hopes of gaining knowledge and experience in the college sport industry from the business and operational side of things, while also pursuing my master's degree in Sports Management here at AC. I love this position because it requires me to be hands-on in everything I do and because of how focused it is on the field of study I want to get into one day. I have already learned so much during my internship and can't wait to continue to learn more."

-Tyler Fyfe
